

Tube-Town Faceplate lab-jimHP-V2

Stand: 09.01.2019

The top faceplate panel features a series of controls and a central logo. From left to right, there is an input jack labeled "INPUT", a volume knob labeled "VOLUME", three frequency sliders labeled "BASS", "MIDDLE", and "TREBLE", a master volume knob labeled "MASTER", the brand name "Jim" in a cursive script, another knob, and a power switch labeled "POWER". Small circles are present at the top and bottom corners of the panel.

The bottom faceplate panel contains several additional controls. From left to right, there is a rectangular fuse holder, a fuse labeled "FUSE B+", a speaker labeled "SPEAKER" with a speaker icon below it, a pair of jacks labeled "RETURN SEND", and two more jacks labeled "SEND" and "RETURN".
